SUMMARY

Results-oriented, Certified Salesforce Developer and Administrator with a proven track record of designing, developing, testing, deploying and configuring scalable and flexible Salesforce custom solutions in agile teams. Skilled in Salesforce Lightning Design System (SLDS), Sales Cloud, Experience Cloud, Salesforce CPQ, Lightning Web Components (LWC), SOQL, JavaScript, C#, HTML, Apex Development and Salesforce integration tools. Seeking a challenging role to leverage technical expertise and experience to drive excellence.

WORK EXPERIENCE

Salesforce Consultant, FullFunnel

Feb 2024 - Present

- Led end-to-end implementation of Salesforce Sales Cloud, enhancing sales and service processes and achieving a significant increase in productivity.
- Managed multiple Salesforce projects simultaneously, ensuring on-time delivery and adherence to budget constraints.
- Customized Salesforce objects, fields, and page layouts to align with business processes.
- Created API integrations, Apex Classes, Flow Automations and Apex Triggers to handle integrations with external systems, improve productivity and enhance user experience.

Salesforce Developer, Coronation Fund Managers

Jan 2022 - Jan 2024

- Implemented user-friendly interfaces and optimized SQL queries for data retrieval and manipulation, averaging a 20% increase in response time, efficiency, and reliability.
- Optimized Salesforce Lightning Applications to streamline processes and increased user adoption rate & facilitated deployments of different applications.
- Assisted in the development of web applications using JavaScript, C#, HTML, and CSS, contributing to front-end and back-end functionalities.
- Collaborated with cross-functional teams, developed and maintained external systems integrations using REST & SOAP APIs, consolidating data and improving user experience.
- Created tests for applications, used Agile methodology to deliver accurate, scalable solutions.

Software Developer Intern, BriskFlow

June 2021 - Dec 2021

- Assisted in the development of web applications using PHP, JavaScript, HTML, and CSS, contributing to front-end and back-end functionalities.
- Participated in code reviews and provided constructive feedback to peers, fostering a collaborative development environment.
- Utilized Git and GitHub for version control, managing code repositories, and collaborating with team members on feature branches.
